

HLTAID009 Provide cardiopulmonary resuscitation

ICG Training and Consultancy Services Pty Ltd's CPR course is tailored to provide you with the knowledge and practical skills needed to take immediate action and potentially save a life in the event of a cardiac emergency.

The course is designed to equip you with the confidence and competence to administer crucial resuscitation in a variety of situations specific to the electrical workplace. From single person rescuer, shared resuscitation and using an automated external defibrillator (AED), you'll gain the skills to make a life-saving difference.

The [HLTAID009 Provide cardiopulmonary resuscitation course](#) equips students with the practical skills to apply emergency response CPR to a casualty in a range of ESI work settings. The course includes using a range of manual and automated methods to respond to a cardiac emergency.

From the guidance of our highly skilled and experienced trainers, you will learn:

- Hands only CPR techniques.
- How to use an automated external defibrillator (AED) to deliver a shock.
- How to communicate with emergency response personnel and record incident details.

Delivery Mode

This course is delivered face-to-face in a classroom setting with theoretical knowledge and practical training and assessment activities in a simulated industry environment.

Assessment Methods

- Theory-based questioning
- Demonstration of practical skills
- Record keeping and documentation completion

Target Cohort

This course targets individuals who may be required to provide first aid in the electrical supply industry. They will come with at least introductory knowledge of the electrical supply industry and leave with practical live saving and emergency response skills.

Duration*

Class based theoretical and practical learning and assessment conducted over **4 hours**. (*2.5 hours for refresher course*).

Location:

ICG Training and Consultancy Services Pty Ltd
44 Cockers Creek Rd,
SPREYTON TAS 7310

OR at your workplace.

Entry Requirements

Students must:

- Be at least 14 years old to participate in CPR training in Australia.
- Have an orientation towards working in the electrical supply industry or already employed.
- Have the necessary LLN skills to commence learning in this program
- Be physically capable of performing at least 2 minutes of uninterrupted CPR to an adult manikin on the floor.

Employment Options

- First Responders (Electrician, Non-electrical Maintenance Crew, Construction Worker, Specialised Rescue Team member)
