

Confined Space Entry Course

ICG Training and Consultancy Services Pty Ltd.'s Confined Space Entry Course is designed to equip students with the essential knowledge and practical skills needed to safely enter confined spaces for various work activities, including rescue operations. This comprehensive training ensures participants develop the confidence and competence to perform these tasks effectively, whether working as part of a single organisation or within a multi-organisation team.

The confined space entry Course covers operating breathing apparatus, utilising electronic test equipment to evaluate atmospheric safety, and adhering to specific work permit conditions, ensuring a secure environment for all confined space operations.

From the guidance of our highly skilled and experienced trainers, you will learn how to:

- Work in accordance with an issued permit for confined space entry.
- Operate breathing apparatus safely and effectively.
- Conduct gas testing to assess and ensure atmospheric safety.
- Enter and work within confined spaces safely and efficiently.
- Undertake confined space rescue operations in emergency situations.

Delivery Mode

This course is delivered face-to-face in a classroom setting with theoretical knowledge and practical training and assessment activities in a simulated work environment.

Assessment Methods

- Theory-based questioning
- Demonstration of practical skills

Target Cohort

This course targets individuals from a wide range of industries who may be required to work in confined spaces.

Unit of Competency

- MSMPER200 Work in accordance with an issued permit
- MSMWHS216 Operate breathing apparatus
- MSMWHS217 Gas test atmospheres
- MSMPER205 Enter confined space
- PUASAR025 Undertake confined space rescue

Duration

Class based theoretical and practical learning and assessment conducted over 3 days (27 hours).

Location:

ICG Training and Consultancy Services Pty Ltd
44 Cockers Creek Rd,
SPREYTON TAS 7310

OR at your workplace.

Entry Requirements

Students must:

- Have an orientation towards working with this equipment.
- Be at least 18 years old at the time of completion.
- Students must not be under the influence of alcohol or drugs.

Employment Options

Successful completion of this course may be an employment requirement for some industries, but does not, on its own, lead to an employment outcome.

Cost

Full cost of this course is **\$695** (GST exempt).

Student Support

ICG offers a range of learning support services and access to networks to ensure ongoing engagement and motivation. Educational and support services can include:

- Pre-enrolment materials
- Study and learning support
- Access to equipment, resources and/or programs to increase access for learners with special needs
- Learning resources and tools
- Referrals to mediation and counselling services
- Flexible training and assessment participation
- IT support
- Learning materials in alternative formats
- Learning and assessment programs contextualised to the workplace, and
- Any other services that we consider necessary to support you to achieve competency.

Study Commitment

The amount of training and assessment required depends on your contribution to your own learning, and your ability to acquire the theoretical components of the program and demonstrate competency.

Students to Supply

Student will access industry appropriate equipment and resources when participating in the practical activities.

Students will be required to source their own:

- Clothing and footwear appropriate to practical training including rubber soled steel capped boots

How to Enrol

All prospective students are to complete an application for enrolment form.

A Unique Student identifier (USI) will be required prior to enrolling into this program. Refer to the Australian Government USI website, where you can:

[Check if you have a USI](#) or [Get a USI](#)

Credit and recognition of current skills may be awarded to eligible students. Contact us to find out more.
