

Working at Heights Course

ICG Training and Consultancy Services Pty Ltd's Working at Heights course is tailored to provide students with the knowledge and practical skills required to safely carry out work at heights, applying work health and safety (WHS) requirements where the worker or objects have the potential to fall from one level to another.

The working heights Course is designed to equip students with the confidence and competence to work at heights in a safe manner through awareness of risks and work requirements, and the planning and performance of safe work practices with concern for personal safety and the safety of others.

From the guidance of our highly skilled and experienced trainers, you will learn how to:

- Identify hazards and conduct a risk assessment to implement necessary controls
- Inspect and apply Personal Protective Equipment (PPE)
- Prepare for work at heights
- Respond to emergencies

Delivery Mode

This course is delivered face-to-face in a classroom setting with theoretical knowledge and practical training and assessment activities in a simulated work environment.

Assessment Methods

- Theory-based questioning
- Demonstration of practical skills

Target Cohort

This course targets individuals with knowledge and experience in a range of sectors who work on a construction site and/or workers needing to update their safety knowledge, and organisations seeking to ensure their staff are adequately prepared to work safely in construction environments, specifically when carrying out work tasks at heights.

Unit of Competency

CPCCWHS2001 Apply WHS requirements, policies and procedures in the construction industry

CPCCCM2012 Work safely at heights

Duration

Class based theoretical and practical learning and assessment conducted over 2 days (14 hours).

Location:

ICG Training and Consultancy Services Pty Ltd
44 Cockers Creek Rd,
SPREYTON TAS 7310

OR at your workplace.

Entry Requirements

Students must:

- Have an orientation towards working with this equipment.
- Be at least 18 years old at the time of completion.
- Students must not be under the influence of alcohol or drugs.

Employment Options

Successful completion of this course may be an employment requirement for some industries, but does not, on its own, lead to an employment outcome.

Cost

Full cost of this course is **\$275** (GST exempt).

Student Support

ICG offers a range of learning support services and access to networks to ensure ongoing engagement and motivation. Educational and support services can include:

- Pre-enrolment materials
- Study and learning support
- Access to equipment, resources and/or programs to increase access for learners with special needs
- Learning resources and tools
- Referrals to mediation and counselling services
- Flexible training and assessment participation
- IT support
- Learning materials in alternative formats
- Learning and assessment programs contextualised to the workplace, and
- Any other services that we consider necessary to support you to achieve competency.

Study Commitment

The amount of training and assessment required depends on your contribution to your own learning, and your ability to acquire the theoretical components of the program and demonstrate competency.

Students to Supply

Student will access industry appropriate equipment and resources when participating in the practical activities.

Students will be required to source their own:

- Clothing and footwear appropriate to practical training including rubber soled steel capped boots

How to Enrol

All prospective students are to complete an application for enrolment form.

A Unique Student identifier (USI) will be required prior to enrolling into this program. Refer to the Australian Government USI website, where you can:

[Check if you have a USI](#) or [Get a USI](#)

Credit and recognition of current skills may be awarded to eligible students. Contact us to find out more.
